GERMAN BOMBARDMENT OF FRENCH CONTINUES

Artois District Again Scene of Heavy Artillery Fighting—French War Office Claims Further Gains at Expense of Enemy—Balkan Situation Worse.

(By the Associated Press.)
Paris, Oct. 2.—There has been a heavy German bombardment in the Artois district, according to an announcement by the French war office.

LONDON VIEW

(By the Associated Press.)
London, Oct. 2.—The situation on the western front is still regarded as serious, but not as desperate as it was a few days ago.

The German forces have made considerable progress in the La Bont region. The German war office claims that the French forces have made considerable progress in the La Bont region.

LARGE NUMBER QUAKER CITY TO ARRESTED HERE DEAD RESULT OF STORM HAVE FIRST CONTEST FOR RECENT MURDER

(By the Associated Press.)
New Orleans, Oct. 2.—The number of known dead, reported dead and missing, was put at 459 in one estimate here today gathered from all points in the storm zone.

Property damage was estimated at \$12,000,000. It was expected that the total number of dead would reach 254. There are 117 missing.

While there have been some duplications in the tabulations, it was said the dead would not be fewer than 350.

Property damage throughout the storm-swept territory has been great. Parties returning from the rich sugar plantations say that the country for miles was under water 14 to 15 feet deep. The levees in many places have been destroyed, rendering more difficult the work of rehabilitation.

River pilots said it would be impossible to reconstruct the levees in many places. Many people were reported marooned on the top of levees, where they took refuge. While no official estimate has been obtainable from this state and along the Mississippi coast, it is believed the damage will approximate \$12,000,000. Relief work is progressing rapidly due to the quick recovery made in the larger cities from the hurricane. Vessels are visiting isolated villages and rendering aid.

GERMAN NOTE ON ARABIC IS RECEIVED

(By the Associated Press.)
New York, Oct. 2.—Count von Bernstorff, German ambassador, delivered to Secretary Lansing today a note from the German government in the Arabic case. The note left the question so it could be arbitrated, it was believed.

The ambassador was closeted with Secretary Lansing for only a few minutes, leaving with him a note which was not disclosed. Both the secretary and the ambassador declined to talk.

It is understood that the secretary will take the note to Washington, where he is returning from his vacation, and after discussing it with President Wilson will determine whether it is satisfactory.

It was learned reliably that the note pledges the German government not to sink merchantmen without warning. It is not known whether the Arabic was engaged in a hostile act or not.

(By the Associated Press.)
New York, Oct. 2.—The National Commission at its meeting today decided that the first game in the world's series shall be played in Philadelphia October 8 and the second game at the same place October 9. The third and fourth games will be played in Boston and the sixth will be played in Philadelphia. In case a seventh game is necessary, the city will be decided before the beginning of the sixth game.

The four umpires who will run the game are Rigler and Klem of the National League and Evans and O'Loughlin of the American League. The National Commission named J. G. T. Spick as official scorer and requested that the newspapers appoint additional scorers. All the rules of 1914 will be in force, and it was announced that the commission will enforce order among the players.

In the case of a tie game or postponement due to inclement weather, the teams will remain in the city where the game was to be played until that game is played, and games on the schedule will be advanced.

BULGARIANS ARE MOVING ON SERBIA

(By the Associated Press.)
Paris, Oct. 2.—It is reported from Athens that Bulgarian troops from Sofia are moving in the direction of the Serbian front by the Greek border.

NEWTON TENNIS CHAMPS LOOKING FOR VICTIMS

(By the Associated Press.)
Newton, Oct. 2.—Having vanquished Fesperman and Summerville, tennis champs of Catawba College, Dr. H. E. Rowe and Lawyer J. C. Sigmon feel so cheery that they are homing and pinning to try conclusions with any pair of racket-wielders in Hickory some time about the middle of next week—they don't care who. The tournaments held here recently have filled in a gap between baseball and football and have been very interesting.

Fesperman and Summerville put up a good fight with the two graduates and townsmen but were outclassed. The score was 6-3, 6-2, 6-0 and 7-5. The Newton champs will be pleased to receive acceptance of their challenge for a set about Wednesday of next week.

(By the Associated Press.)
Charged with complicity in the murder of Dave Wilson near Forest City two weeks ago, Ralph Brown, a young white man, was arrested just outside of the city limits late yesterday by Chief of Police Lentz and Officer Sigmon and lodged in jail to await the arrival of a Rutherford county official today. Brown denied taking part in the murder, saying that Ben Hensley, who is also wanted, fired the fatal shots. According to Brown, three shots were fired by Hensley, while the prisoner made off from the scene as fast as he could run.

Brown was on his way to see his father who lives in the rear of the Lenoir College campus when somebody telephoned the police department that he was here. He landed at 4:32 and set out to walk home. Messrs. Lentz and Sigmon intercepted him, Brown surrendered with nothing more than a protest of his innocence and was brought to the station.

Brown's wife, hearing that her husband had been arrested, went to the station house last night and requested that she be allowed to remain in the cell with him. She remained all night, and insisted that she would stay with him through all his troubles. Other members of the family visited the jail last night.

It is said that Wilson was robbed and murdered and rewards of \$50 had been offered for Brown and Hensley. Sheriff Tanner arrived in the city this afternoon and returned with Brown to Forest City, where the preliminary trial will convene in two weeks. The sheriff said that there was some doubt as to who did the shooting, one witness saying Brown fired the fatal shots and another placing the blame on Hensley.

SCHEDULES CHANGE C. & N. W. OCT. 10

Announcement has been made by Supt. C. E. Crosby of the Carolina & North-Western Railway, that beginning October 10 this road will operate a double daily passenger service, Nos. 7 and 8 to be passenger trains exclusive of mixed trains as at present. The schedule of the train has been changed considerably. No. 7, southbound, will pass Hickory at 9:05 a. m., and passengers on this train can get into Charlotte at 1:05 p. m. No. 8, northbound, will leave Hickory at 8 p. m., waiting at Lincolnton for the Seaboard train, which leaves Charlotte at 3:30 p. m., and will arrive at Hickory at 5:30.

AMERICAN NAVAL POLICY BE ALTERED RADICALLY

Great Britain's Success in Combatting Submarine Warfare Vindicates Faith of American Naval Officers and Causes Revision of American Program

SAYS WAR BEGAN OVER FOUR YEARS AGO

(By the Associated Press.)
Washington, Oct. 2.—The American naval policy for the coming year, tentative plans for which recognize the development of submarine warfare, will be broadly affected by the British admiralty's development of successful means of combatting submarines.

Confidential reports disclosing the destruction of between 50 and 70 German submarines have fulfilled the conviction of American naval experts that means would be found to successfully combat undersea naval warfare. Likewise the report has confirmed the faith of American experts that the big guns—those carried on dreadnaughts—are the effective fighting force of any navy.

One effect of this will be a program of more dreadnaughts rather than building submarines. It is explained, that the successful means of repelling submarine warfare will not prevent the building of a submarine fleet. The new undersea boats will have a high speed and will carry light guns.

Naval officers realize that the remarkable success of German undersea-boats created a profound impression throughout the country and was the cause of a strong sentiment for building them to the exclusion of battleships.

Submarine Telephone. While the greatest secrecy is shown around the means employed, the United States government has information concerning the principal methods which have been successful in meeting the German war zone campaign. A submarine telephone has been developed by which it is possible to detect the approach of a submarine by sound from observation boats or stations planted off shore connected with points in the mainland.

For the capturing of craft whose presence has not been suspected, or even suspected, the government's reports describe how huge nets have been stretched across the channels through which the submarines may be expected to attempt to pass, and in open waters, near steamship lanes or in the vicinity of warships, nets suspended between floats have been spread broadcast. Armed patrol boats watch and when the floats disappear beneath the water surface, the submarine has become entangled, the patrols congregated at the place and when the victim comes to the surface it is destroyed by gunfire or captured.

COBB STILL LEADING MAJOR LEAGUE PLAYERS

(By the Associated Press.)
Chicago, Oct. 2.—Tyrus Cobb continues to lead the American League batters. Cobb has batted for .363, while Eddie Collins is second. Cobb has made 142 runs, five behind the American League record he made in 1911. In total bases he leads with 265. Sam Crawford is a close second with 261. Cobb promises to run his record of stolen bases into the century mark, he now having 97 to his credit.

Detroit leads in club batting with .264. The leading pitchers are Shore of Boston, won 20 and 7, with Foster and Ruth, also of Boston, coming second and third.

In the National League Luderus and Doyle are tied in batting. Doyle is the leading run getter with 83 to his credit. Cravath leads in total bases with 257 and in home runs with 23, only two less than the major league record made by Freeman of Washington in 1909. The leading pitchers are Tony of Cincinnati, won 15 out 4, Alexander of Philadelphia and Mamaux of Pittsburgh.

Kauff leads the Federals in batting, while Chase leads in total bases.

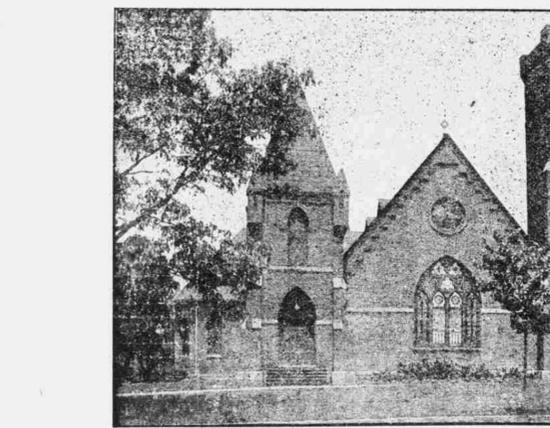

PREACH TOMORROW HOLY TRINITY CHURCH

Rev. W. E. Murray, who arrived in the city Thursday, will occupy the pulpit of Holy Trinity Lutheran church, to which he has been called, at both services Sunday. Mr. Murray preached here several months ago, and made a most favorable impression on the congregation. He comes here from Rochester, N. Y., where he has been a force in the religious world, and already has begun to make friends in Hickory. Needless to say Mr. and Mrs. Murray not only will be warmly welcomed by the Lutherans, but by the people of the entire community as well.

Subject of morning sermon: "Christian Service." Subject of evening sermon: "What Must We Do to Be Saved?" A cordial invitation is extended to all strangers in the city to attend these services. Every member of Holy Trinity will be present. Everybody welcome.

James W. Gibbons of Baltimore, Md., was a visitor to Hickory yesterday.

Rally Day at First Methodist

Superintendent Ivey and other officers of the First Methodist Sunday school are making special efforts to make Rally Day a success. The cut shows that the Methodist church is one of the several unusually handsome edifices in Hickory. Everybody not connected with another Sunday school is invited to attend. Rev. A. L. Stanford will baptize children at this service.

THE WEATHER

Forecast for North Carolina: Fair tonight and Sunday; gentle to moderate westerly winds becoming variable.

RALLY DAY SERVICES IN HICKORY SUNDAY

Rally Day will be observed at three Sunday schools in the city tomorrow—the First Presbyterian, the First Baptist and the First Methodist—and the officers of these schools have appealed to their members and others to be on hand. At all the institutions interesting exercises will be held. Visitors will be given a cordial welcome at each, and if there is anybody in the city who is not accustomed to attending Sunday school he would find Sunday a good time to start.

ELECTRIC BOOKKEEPER AT THE HICKORY BANK

An adding machine that does the work of two men, that is as pretty as it is neat, that is driven by an electric motor and that positively refuses to be cajoled or bulldozed into doing the thing wrong has been installed by the Hickory Banking & Trust Company. Incidentally the machine cost a small fortune, but as it saves muscle and brain work, it is cheap at the price.

The machine was invented by William Seward Burroughs, has long passed the experimental stage, and is being installed by banks in many of the best towns and cities. One almost expects to hear it talk. It is a mechanical bookkeeper and it does its work with some intelligent aid, after the close of business each day.

The Hickory Banking & Trust Company is naturally proud of the new bookkeeper, which is on the job all the time. It simplifies banking and adds to the efficiency of the bookkeeping department.

MARKETS

NEW YORK STOCKS

(By the Associated Press.)
New York, Oct. 2.—Heavy trading in war shares was resumed today, Westinghouse again remaining prominent, advancing to 135 3/4. General Motors, which recently disbursed a fifty per cent dividend, likewise rose, and United States Steel made further improvements at the outset but reacted. Railroads were again virtually a drag on the market.

COTTON FUTURES

New York, Oct. 2.—Cotton futures opened easy and closed steady:

	Open	Close
October	11.60	11.70
December	11.90	11.97
January	12.07	12.13
March	12.37	12.41
May	12.60	12.62

Mrs. J. P. Lore of Lincolnton is visiting her sister, Mrs. D. M. Boyd.

WASHED FOUR PIES DOWN HIS SYSTEM

Three Johnson, a colored boy, was sentenced to six months on the roads by Judge Campbell this afternoon for entering two places and taking pies which did not belong to him. He was found his way into the Callahan fruit store and then departed with a pair of shoes.

Going over to "Bobtown" he entered Edward Hill's restaurant by means of a window, took unto himself four pies, washed them with Coca Cola, and then departed through the window with that junk in his anatomy.

A. Bond, Chief Lentz and Officer Sigmon were on the job. They are committed here, and they will violate the law regardless of their position, color or previous condition.

They are all violators of the law. The Hickory's guardians of the law.
